Dear FCC:

I am writing to object to the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. For many people the wireless phone is a safety beacon, which they cannot do without in this dangerous world.

I do not think it is fair to charge EVERYBODY \$1.00 regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair. And reasonable.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Mildred Denney
